Educating our industry

Master Builders has put together our best ever training calendar for members in 2016. There are relevant training courses for everyone engaged in all sectors of our industry - in both metropolitan and regional areas.

The diversity of courses we are offering stems directly from member feedback for you and your staff.

I encourage members to take advantage of the range of courses we have organized for you. The topics are relevant and the trainers are first class.

Please feel free to pass on our Training Calendar to your colleagues and contractors. They should appreciate your interest in their prosperity.

Should you wish to customize any of our training courses for your business, please contact our Training Director, Neil Du Rand on 9441 8000 to discuss your requirements.

Members are also able to access the range of training courses provided by MBAV's Building Leadership Simulation Centre in Melbourne. For details go to www.blsc.com.au.

Training is a critical element in keeping your workforce informed, updated, motivated & equipped with the skills to meet your regulatory obligations and provide professional expertise to your clients.

Should you require a training course that is not in our Training Calendar, please let us know. We would also welcome your feedback on any course you attend as a means of helping us plan our next Training Calendar.

A properly trained workforce will always contribute to a safer and more productive business.

Michael McLean

Executive Director

Master Builders Association of Western Australia

Master Builders Training is proud to offer quality training that is provided by qualified trainers that have relevant industry experience. Through our bulk billing agreement with the Construction Training Fund we have reduced the paperwork and continue to provide affordable training.

We are currently undertaking a review of the services in line with our strategic purpose and have lodged an application with the Training Regulator to increase our Registered Training Organisations scope of qualifications on offer. We will continue to increase the training on offer in order to meet the needs of our members as well as others.

“The strategic purpose of training is to deliver relevant, quality training that is efficient, affordable and sustainable to increase the skills and knowledge in the building and construction industry in WA.”

As a business unit of Master Builders, our aim is to be the provider of choice for our members.

We remain flexible for customised training, onsite training or current training on dates other than those listed in this calendar or on our website. We have conducted a survey and continue to discuss training needs to better tailor our training.

Please feel free to discuss your needs with myself or my staff on 9441 8000 or via email to training@mbawa.com.

Master Builders offer a full range of safety services such as safety training courses, safety management plans, site safety audits, safety awards for both residential and commercial construction and safety advice.

Annually in November, Master Builders hold Apprentice Awards where we recognise the builders and apprentices in a number of construction trades. During these prestigious awards we showcase some of the best apprentices in Western Australia. Nominations are free and employers are encouraged to nominate their construction trade apprentices.

Thank you

Neil Du Rand

Training Director

Master Builders Association of Western Australia

CONSTRUCTION SKILLS - Perth Metro

ATTACH CORD AND PLUGS TO ELECTRICAL EQUIPMENT FOR CONNECTION TO A SINGLE PHASE 230V SUPPLY.

UEENEEP024A

(The registered Training Organisation Frontline Safety and Training 50791 will be the RTO issuing this qualification).

This unit covers attaching flexible cords and plugs to electrical equipment for connection to supplies up to 230v a.c. It encompasses working safely, identifying plug configurations, selecting and using testing and measuring devices, terminating and connecting cords/plugs and conductors, safety testing and reporting.

PRE REQUISITE: You must have successfully completed after January 2013 the Portable electrical testing and tagging course UEENEEP026A & UEENEEE101A with Frontline Safety & Training before you can attend Attach cord & plugs to electrical equipment for connection to a single phase 230v supply course.

ON COMPLETION: After successful completion of this course, you will be issued with a Statement of Attainment by Frontline Safety and Training for UEENEEP024A Attach cord and plugs to electrical equipment for connection to a single phase 230v supply.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 21 April, Wednesday 13 July.

SCAFFOLD REQUIREMENTS

This course provides a supervisor with everything you need to know in order to ensure that scaffolding on-site is in accordance with the requirements.

Covering requirements for: -

- Access to working platforms
- Bracing
- Edge protection
- Inspections and handover certificates
- Hazard Identification and control
- Licensing requirements for scaffolding
- Mobile scaffolds
- Prefabricated scaffolds
- Ties
- Types of scaffolding

CONDUCT IN-SERVICE SAFETY TESTING OF ELECTRICAL CORD CONNECTED EQUIPMENT AND CORD ASSEMBLIES

UEENEEP026A

(The registered Training Organisation Frontline Safety and Training 50791 will be the RTO issuing this qualification).

Amendments were made to the OSH Regulations to allow a competent person to test and tag portable electrical equipment for use on a construction and/or demolition site. As required by the Occupational Safety and Health Act and Regulations, the course provides participants with the knowledge and skills required to test and tag portable electrical equipment on demolition, construction and mine sites.

PRE REQUISITE: It is required that you have obtained the Work safely in the construction industry CPCCOHS1001A (white card) obtained after October 2009, and to provide a copy of your Statement of Attainment together with your registration form

ON COMPLETION: After successful completion of this course, you will be issued with a Statement of Attainment by Frontline Safety and Training for UEENEEP026A Conduct in-service safety testing of electrical cord connected equipment and cord assemblies and UEENEEE101A Apply occupational health and safety regulations, codes and practices in the workplace.

DURATION: 6 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 24 March, Friday 20 May & Friday 16 September.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 7 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Friday 13 May, Wednesday 29 June & Wednesday 2 November.

CONSTRUCTION SKILLS - Perth Metro

CONDUCT CIVIL CONSTRUCTION SKID STEER LOADER OPERATIONS RIIMP0318D

(The registered Training Organisation, Industrial Foundation for Accident Prevention (IFAP) 1907 will be the RTO issuing Statement of Attainment for this unit of competency)

This 2 day course aims to provide you with the skills and knowledge to conduct skid steer loader operations in the construction industry.

On successful completion of this course, you should be able to

- Plan and prepare;
- Conduct machine pre-operational checks;
- Operate skid steer loader;
- Carry and place materials;
- Select, remove and fit attachments;
- Relocate the skid steer loader ;
- Carry out machine operator maintenance; and
- Clean up

ON COMPLETION: After successful completion of the assessment requirements you will be issued with a Statement of Attainment for RIIMP0318D Conduct civil construction skid steer loader operations.

DURATION: 8.5 hours

LOCATION: Industrial Foundation for Accident Prevention (IFAP), 128 Farrington Road, North Lake

DATES: Thursday 20 & Friday 21 October 2016 (2 day course)

LICENCE TO OPERATE A BOOM-TYPE ELEVATING WORK PLATFORM TLILIC2005A

(The registered Training Organisation, Industrial Foundation for Accident Prevention (IFAP) 1907 will be the RTO issuing Statement of Attainment for this unit of competency)

The aim of this 2 day course is to provide you with the knowledge and practical skills required to be able to plan the work, conduct routine checks, set up elevating work platform, operate elevating work platform and shut down and secure elevating work platform (boom length 11 metres or more).

This unit is based on the National Standard for Licensing Persons Performing High Risk Work and requires the operator to be able to: -

- Plan work;
- Conduct routine checks;
- Set up elevating work platform;
- Operate elevating work platform;
- Shut down and secure elevating work platform.

PRE-REQUISITE: Participant must be at least 18 years of age and can use the English language at a level that enables the safe performance of high risk as specified in the competency standards.

ON COMPLETION: After successful completion of the assessment requirements you will be issued with a Statement of Attainment for TLILIC2005A Licence to operate a boom-type elevating work platform (boom length 11 metres or more) and a Notice of Assessment (interim licence).

DURATION: 8.5 hours

LOCATION: Industrial Foundation for Accident Prevention (IFAP), 128 Farrington Road, North Lake

DATES: Thursday 18 & Friday 19 August 2016 (2 day course)

CONSTRUCTION SKILLS - Perth Metro

LICENCE TO PERFORM DOGGING CPCCLDG3001A

(The registered Training Organisation, Industrial Foundation for Accident Prevention (IFAP) 1907 will be the RTO issuing Statement of Attainment for this unit of competency)

The aim of this 5 day course is to provide you with the knowledge and practical skills required to demonstrate competency in the application of slinging techniques, selection and inspection of lifting gear and/or the directing of the crane/operator in the movement of the load.

This course is designed for those who intend to work with cranes and also who may be required to dog loads with load shifting equipment.

This unit is based on the National Standard for Licensing Persons Performing High Risk Work and requires the operator to be able to:

- Plan the job
- Select and inspect equipment
- Prepare site and equipment
- Perform task; and
- Shut down job & clean up

PRE-REQUISITE: Participant must be at least 18 years of age and can use the English language at a level that enables the safe performance of high risk as specified in the competency standards.

ON COMPLETION: After successful completion of the assessment requirements you will be issued with a Statement of Attainment for CPCCLDG3001A Licence to perform dogging and a Notice of Assessment (interim licence).

DURATION: 8.5 hours

LOCATION: Industrial Foundation for Accident Prevention (IFAP), 128 Farrington Road, North Lake

DATES: Monday 1 to Friday 5 August, 2016 (5 day course)

LICENCE TO PERFORM RIGGING - BASIC LEVEL CPCCLRG3001A

(The registered Training Organisation, Industrial Foundation for Accident Prevention (IFAP) 1907 will be the RTO issuing Statement of Attainment for this unit of competency)

The aim of this 5 day course is to provide you with the knowledge and practical skills required to be able to plan the work, select and inspect equipment, set up tasks, erect and dismantle structures and plant.

This course is designed for those who have dogging experience and intend to work with steel structures and equipment.

This unit is based on the National Standard for Licensing Persons Performing High Risk Work and requires the operator to be able to: -

- Plan job, select and inspect equipment;
- Set up task;
- Erect structures and plant; and
- Dismantle structures and plant.

PRE-REQUISITE: Participant must have completed CPCCLDG3001A Licence to Perform Dogging or hold a valid licence for dogging.

ON COMPLETION: After successful completion of the assessment requirements you will be issued with a Statement of Attainment for CPCCLRG3001A Licence to perform rigging basic level and a Notice of Assessment (interim licence).

DURATION: 8.5 hours

LOCATION: Industrial Foundation for Accident Prevention (IFAP), 128 Farrington Road, North Lake

DATES: Monday 25 to Friday 29 July, 2016 (5 day course)

INDUSTRY SKILLS - Perth Metro

BASIC CONTRACT ADMINISTRATION

Is your building business suffering a breakdown in the management of the building contracts? Is it due to site information not being passed on to the right people?

Topics covered in the course include:

- Understanding the contract
- The BIG three: Variations, Delays and Defects.
- Communication and Dispute Resolution

Participants are encouraged to bring the contracts they use to the course. This will provide them with a greater understanding of the documents they use and where to find relevant provisions.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 19 May, Wednesday 20 July & Thursday 13 October.

BCA BRICKWORK REQUIREMENTS

This course looks at the Building Code and Australian Standard requirements for brickwork including:

- Accessories
- Reinforced and unreinforced masonry including internal and external walls and piers
- Exposure factors
- Chasing brickwork for services
- Weatherproofing of brickwork including flashing requirements for brickwork
- Maintaining continuous and minimum cavity

At the completion of the course the participants will have a better understanding of brickwork requirements of the BCA and Australian Standard. The workshop will be interactive and participants are encouraged to be involved with the situations that will arise.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 3 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 3 February, Tuesday 10 May & Monday 19 September

BCA WATER-PROOFING OF WET AREAS

This course looks at the requirements of water-proofing of wet areas in residential buildings. Common problem areas encountered by builders in the installation of water-proofing will also be discussed.

Topics include:

- Minimum shower construction requirements
- Bath installation
- Waterproofing of domestic wet areas to AS3740 including falls and joints
- Floor wastes and other penetrations

At the completion of the course the participants will have a better understanding of the minimum water-proofing requirements of the BCA and Australian Standards for residential buildings.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 3 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 21 January, Friday 15 April, Friday 22 July & Friday 7 October.

CONTRACT MANAGEMENT

The contract provides the basis for the scope of work, getting paid, managing time and quality issues, documenting project management and resolving disputes.

This course offers an overview of every area of contract management for those who need to know a little about everything.

- Contract formation and interpretation
- The claims process
- Variations, EoT's and delay costs
- Management teams
- Dispute resolution

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 7 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 4 February, Tuesday 22 March, Thursday 2 June, Thursday 11 August & Wednesday 9 November.

INDUSTRY SKILLS - Perth Metro

CUSTOMER SERVICE

Imagine a culture of "service entrepreneurship", where each staff member enthusiastically takes responsibility for ensuring your customers have an experience they'll want to share with everyone they meet! It's no longer good enough to give "excellent" customer service. To get customers coming back to you time and again, to get customers giving you rave reviews, your service has to be nothing short of "extraordinary".

In today's price-sensitive economy, everyone on your team needs to be willing to do whatever it takes to "wow" your customers – it's the only way to stand apart from your competitors and win the business.

- Identify the qualities of good and bad customer service
- What makes service outstanding?
- The 9 key attributes of an outstanding customer service provider
- Outstanding service is up to you
- It's the little things that make the biggest impact – what service memory can you create?
- Important first impressions – grooming and deportment
- Greeting the customer – what to do and what not to do!
- Showing you care – practical ways to be helpful and service oriented
- Exceeding customer expectations – under promise and over deliver

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday 12 April & Tuesday 13 September.

DIY DEBT COLLECTION

Owed money? Don't want to spend good money chasing bad? You don't have to. You can simply do your own debt collection, using the tools that your contract and legal system offer. NO EXPENSIVE LEGAL BILLS!

Topics covered in this 4 hour course: -

- The Contract
- Dispute Resolution Options
- Application for Adjudication
- Magistrates Court
- Building Disputes Legislation

You can DIY ! Come and find out how on this course

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday 7 June & Friday 18 November.

EFFECTIVE BUSINESS WRITING SKILLS

This course will look at the purpose of different communications, the medium to use to transmit it, the language to use and the ways in which you can be misunderstood.

- Emails, memos and other informal communications;
- Diaries, journals, site reports and other records of information;
- Minutes of meetings; and
- Formal correspondence such as letters, contractual notices and claims.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 2 March & Tuesday 5 July.

INDUSTRY SKILLS - Perth Metro

LAWS AND RULES SPECIFIC TO REGISTERED HOME BUILDERS

The registered home builder faces great challenges! Home building is more emotionally charged and more heavily regulated than the rest of the construction industry.

This course covers the extra rules that apply to Home Building Contracts under \$500,000 and the best ways of managing these contracts. It also looks at the consumer protection laws that apply uniquely to this market. A must for all registered home builders!

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Monday 15 February, Wednesday 4 May & Thursday 29 September.

NEGOTIATION SKILLS

An essential for all personnel involved in contract negotiation, contract management or dispute resolution.

Topics covered include:

- Communication skills.
- Negotiation and conflict resolution.
- Avoiding bargaining over positions.
- Separating people from the problem.
- Insisting on objective criteria.
- Getting the other side to play.
- Identifying the point at which negotiation is no longer desirable or possible.
- Best alternatives to a negotiated agreement.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday 8 March & Wednesday 14 September.

PLANNERS GUIDE TO SUBDIVISION

The subdivision process can often be confusing with the planning requirements, forms and information necessary, local and state government involvement in the process.

Topics covered in this 4 hour course:

- What to look out for when buying property for subdivision?
- Do I green title or survey strata, what's the difference?
- How do I design my subdivision and what things do I need to look out for?
- Do I build or subdivide first?
- Who can help me get my subdivision through?
- What approvals do I need and what will they be looking for?
- What are some of the cost involved in subdivision?
- What are the issues we can expect to face before and after?

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 17 March, Thursday 23 June & Wednesday 21 September.

PLANNING APPROVAL PROCESS

This course is a must for Sales Representatives, Shire Liaison staff and Draftspersons.

Bring your applications in to resolve any issues you may have with Council.

- How to get your approval faster?
- What needs planning approval?
- What tools do they use to assess my application?
- What are the right questions to ask?
- What to include in your application?
- Who is involved?
- What to do when it goes to Council?
- What happens when it is refused?

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday 9 February, Friday 3 June, Monday 11 July & Wednesday 26 October.

INDUSTRY SKILLS - Perth Metro

PLAN READING & INTERPRETATION

Plans and specifications are critical to all buildings. This course looks at the minimum standard builders should expect for plans, and references in the specification. Notations and Symbols are explained for both Architectural and Structural plans and details.

After attending this course you will have a better understanding on plan reading and interpretation as well as minimum standards expected in documentations.

- Defines what minimum details should be expected for residential buildings to explain things clearly on site.
- Shows how specification and plans are cross-referenced.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 3 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday 1 March, Thursday 9 June & Wednesday 28 September.

RESIDENTIAL DESIGN CODES OF WA

This course will provide you with an understanding of the Residential Design Codes of Western Australia and how they are used and referenced for Planning and Building Approvals.

Topics covered include: -

- General requirements of the residential design codes of Western Australia
- Detailed review of State Planning Policy
- Review of the Explanatory Guidelines
- An overview of Planning Bulletin 109
- Review of Frequently Asked Questions

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday 15 March, Tuesday 17 May & Thursday 10 November.

STRESS & WELL-BEING MANAGEMENT (workshop)

Most of us aren't prepared to admit that we're not coping. We feel like we're supposed to have a handle on all of the pressures in our lives. We feel like it would be a weakness to own up to feeling overwhelmed.

Acknowledging your feelings (and your "humanness") is not only the first step in dealing with stress, it's also displaying a strength and courage that many people shy away from.

Using interactive, experiential exercises and real-life case studies throughout the program, you'll walk away with your own well-being plan and some proven techniques for lowering stress and reducing your sense of being overwhelmed.

At this powerful half-day workshop, you will learn simple strategies and techniques that you can apply to lessen stress and improve well-being.

- What creates stress and tension?
- How to tame your thoughts and manage your emotions
- How to take control of your life and stop over-committing yourself
- How to release tension in an instant
- How to use focus and self-discipline to overcome overwhelm
- Six simple well-being strategies to manage stress

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 24 February, Wednesday 18 May & Tuesday 2 August.

INDUSTRY SKILLS - Perth Metro

SUCCESSFUL SELLING (workshop)

If you work anywhere where there's a complex sales environment (in other words you're not selling chewing gum in a milk-bar, or nails at Bunnings), be it as a pre-start consultant, client liaison, landscape designer or fit-out consultant, this workshop will help you sell more successfully.

By the end of this workshop, you'll have created your own personal, step-by-step sales system. You will also: -

- Learn how to ask the right questions to move the prospect on to the next stage of the journey;
- Learn what listening attentively feels like so that you can spot the buying signals as well as the objections, early;
- Create your own step-by-step sales process using a ready-made blueprint as your guide;
- Develop a successful selling attitude and mindset;
- Learn how to overcome objections and get to the truth so that you don't waste time trying.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 23 March, Tuesday 28 June & Thursday 3 November.

TENDERING FUNDAMENTALS

This course is designed to teach you how to write a tender and how to ensure that your response to the opportunity is strategically written in order to maximise your chances of winning.

Course content and activities include:

- Understanding the tender process
- Preparing to tender
- Bid planning
- Bid management
- Tender strategy
- Preparing your tender response
- Independent peer review

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 3 March, Tuesday 19 July & Wednesday 12 October.

THE LAW IN CONSTRUCTION

The one stop shop on all the major contractual and legal issues particular to the construction industry – a one day investment for a career-long return.

Topics covered in this course: -

- » The Tender Process;
- » Delay and Disruption;
- » Risk, Liability and Insurance ;
- » Personal Properties Security Act ;
- » Good Faith in Contracting;
- » Getting Paid; and
- » Building Services Legislation -
 - Dispute Resolution through the Building Commission and State Admin Tribunal;
 - The new builder's registration system; and
 - New procedures for building permits and certifications.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 8 hours

LOCATION: Master Builders Association of WA Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday 23 February, Wednesday 25 May & Tuesday 18 October.

TIME MANAGEMENT

We have email, instant messaging, social media, video conferencing and the smart-phone. But the price of that connectedness is overwhelm!

Important tasks get interrupted and delayed because people are not managing their activity or their projects effectively.

In this 4 hour course, the focus is on goal setting, prioritising and planning. We cannot manage time – the fact is we all get allocated the same number of hours every day – what we can manage however, is the activity we choose to fill our time with. And this is the secret to high personal productivity.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 14 April, Tuesday 12 July & Monday 24 October.

INDUSTRY SKILLS - Perth Metro

TIMBER FRAMING CODE

This course has been developed to provide participants with an understanding of the requirements of AS1684 for floor, wall and roof framing.

Course overview:

- Relates to the relevant provisions of the Building Codes of Australia and Australian Standards for Residential timber-framed construction (specifically non-cyclonic areas for residential buildings).
- Excludes special design considerations for cyclonic areas.
- Basic review of applicable BCA provisions, including interpretation, definitions and building classifications.
- Reviews specific BCA provisions for –
 - Part 3.1.3 Termite Risk Management
 - Part 3.4 Framing
 - Part 3.10.1 High Wind Areas
- Reviews AS 1684.2 – 2010 Residential Timber-Framed Construction Part 2 Non-Cyclonic Areas.
- Compares AS 1684.4 – 2010 Residential Timber-Framed Construction Part 4 Simplified – Non-Cyclonic Areas.
- Considers the impact of and risk management for European Borer in Western Australia.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 3 hours

LOCATION: Master Builders Association of WA Level 3, 35-37 Havelock St, West Perth

DATES: Friday 22 April, Thursday 7 July & Tuesday 15 November.

WORKPLACE COMMUNICATION

With a multi-cultural workforce, it is essential that managers, supervisors, team leaders and safety officers understand how to communicate effectively. People's lives, and your bottom line, depend on it.

Topics covered in this 4 hour interactive course: -

- Communicating clearly;
- Communicating effectively to a group;
- Breaking down instructions to improve comprehension;
- Perception checking ;
- Understanding your own communication style and how best to adapt to others' styles;
- The importance of non-verbal communication;
- Choosing the most appropriate channel of communication;
- Active listening skills;
- Delivering high impact messages;
- Giving constructive feedback.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 30 March, Thursday 14 July, Tuesday 27 September & Tuesday 6 December.

IDENTIFY REQUIREMENTS FOR SAFE TILT-UP WORK CPCCCM1016A

(The registered Training Organisation Frontline Safety and Training 50791 will be the RTO issuing this qualification).

Master Builders has developed a partnership for the provision of the Identify requirements for safe tilt-up work CPCCCM1016A as prescribed by WorkSafe to work with tilt-up panel construction. (previously Carry out tilt-up work safely CPCCCM2011A)

PRE REQUISITE: Persons wishing to attend this course must have successfully completed the Work safely in the construction industry course (CPCCOHS1001A). The 'Blue Card' (Safety Awareness Training) is not recognised as a prerequisite for this course.

You must forward a copy of your Card or Statement of Attainment for the Work safely in the construction industry course (CPCCOHS1001A) with your registration form for Identify requirements for safe tilt-up work course.

ON COMPLETION: After successful completion of this course, you will be issued with a Statement of Attainment by Frontline Safety and Training for CPCCCM1016A Identify requirements for safe tilt-up work.

DURATION: 5 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 20 January, Thursday 31 March, Thursday 12 May, Wednesday 31 August & Tuesday 8 November.

LEADERSHIP IN WORK HEALTH & SAFETY FOR SUPERVISORS & MANAGERS

This course is applicable to all Site Supervisors, Managers, Project Managers and Administrators to improve and manage safety in their workplace.

Learning Outcomes:

- Provide information to the work group about Occupational Health and Safety policies and procedures.
- Implement and monitor the participative arrangements for the management of Occupational Health and Safety.
- Implement and monitor the organisation's procedures for providing Occupational Health and Safety.

JOB SAFETY ANALYSIS (JSA)

The JSA training course intends to educate all parties in the development of a Job Safety Analysis for a work task in the building and construction industry.

At the end of the course participants will be able to:

- Define duty of care responsibilities of employers, main contractors, self employed and employees
- Identify, assess and control hazards associated with construction and building work tasks.
- Identify when a JSA is required under the legislation.
- Identify hazards at work and to take positive action to reduce or eliminate those hazards, using the preferred order of control.
- Develop a safe system of work through the preparation of a Job Safety Analysis, for a job task, in consultation with persons involved in the task.
- Review a Job Safety Analysis for compliance with the minimum requirements of the OSH legislation.
- Understand the importance to work together to secure a safe workplace.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 11 May, Friday 12 August & Friday 25 November.

- Implement and monitor procedures for identifying hazards and assessing risks.
- Implement and monitor the organisations procedures for controlling risks.
- Implement and monitor the organisations procedures for maintaining Occupational Health and Safety.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 8 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 25 February, Tuesday 24 May & Thursday 15 September.

OCCUPATIONAL HEALTH & SAFETY - Perth Metro

PROVIDE BASIC EMERGENCY LIFE SUPPORT HLTAID002

(The Registered Training Organisation St John Ambulance (Western Australia) 0392 will be the RTO issuing this qualification).

This course will provide you with the skills and knowledge to recognise and respond to life threatening emergencies in a range of situations. This course includes a CPRI23 take-home kit.

- D.R.S.A.B.C.D. action plan;
- Principles of first aid and chain of survival;
- Legal issues and infection control;
- Basic anatomy and physiology considerations in provision of first aid;
- Choking and airway obstruction;
- Asthma;
- Chest pain;
- CPR: 4 minutes of uninterrupted Cardiopulmonary Resuscitation on the floor;
- Use of an Automated External Defibrillator;
- Severe allergic and anaphylactic reactions;
- Severe bleeding and shock;
- Stress management awareness.

ON COMPLETION: On successful completion you will be provided with a Statement of Attainment issued by St John Ambulance for Provide Basic Emergency Life Support HLTAID002 and HLTAID001 Provide CPR.

DURATION: 8 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Thursday 11 February, Tuesday 19 April, Wednesday 8 June, Tuesday 16 August & Thursday 20 October.

RESTRICTED ASBESTOS REMOVAL LICENCE

A licence is required in Western Australia for removal of materials that contain asbestos.

A Restricted Asbestos Removal Licence will allow you to remove amounts exceeding 10 square metres of bonded (non-friable) asbestos. The licence will be valid for three years and there is no pre-requisite for this course.

On successful completion of this course (80% pass mark required on written examination), participant can apply to WorkSafe for a Restricted Asbestos Work Licence.

3 Modules covering the following: -

- Legislative framework
- Risk management
- Removal and disposal of non-friable (bonded asbestos).

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Wednesday 10 February, Wednesday 1 June & Wednesday 5 October.

SUPERVISE TILT-UP WORK CPCCBC4022A

(The registered Training Organisation Frontline Safety and Training 50791 will be the RTO issuing this qualification).

The aim is to provide participants with the necessary knowledge and skills to equip them to supervise work in tilt-up construction.

This course is based on the requirements outlined in the Regulations, OSH Act, Code of Practice and Standards and includes: -

- Notification requirements
- Code of practice
- Documentation requirements
- Safe work method statement and JSAs
- Emergency planning and procedures
- Construction sequencing
- Propping
- Inspection requirements
- Site specific management plan

PRE REQUISITES: There are 2 course pre-requisites required by the training provider – Frontline Safety & Training Services: Persons wishing to attend this course must have successfully completed both courses: -

- "Work safely in the construction industry" course (CPCCOHS1001A) or "Safety Awareness Training" course Statement of Attainment. *You must forward a copy of your Card OR Statement of Attainment with your registration form.*
- "Contribute to safe tilt-up", "Carry out tilt-up work safely" or "Identify requirements for safe tilt-up work" course and forward a copy of your Statement of Attainment with your registration form.

ON COMPLETION: After successful completion of this course, you will be issued with a Statement of Attainment by Frontline Safety and Training for CPCCBC4022A Supervise tilt-up work.

DURATION: 8 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Monday 22 February, Wednesday 22 June, Thursday 8 September & Wednesday 7 December.

OCCUPATIONAL HEALTH & SAFETY - Perth Metro

WORK SAFELY AT HEIGHTS RIIHWHS204D

(The registered Training Organisation, Industrial Foundation for Accident Prevention (IFAP) 1907 will be the RTO issuing Statement of Attainment for this unit of competency)

This 1 day course aims to provide participants with the skills and knowledge to Work Safely at Heights. It includes identifying the work requirements; work procedures and instructions for the task; accessing and installing equipment; performing work at heights and cleaning up with work area.

On completion of this course you will be able to: -

- Identify work and OHS requirements associated with working safely at heights;
- Identify, manage and report potential risks and hazards associated with working at heights;
- Select and check safety equipment;
- Inspection and/or install fall protection and perimeter protection equipment;
- Ensure correct fitting, adjustment and anchor placement for fall protection equipment;
- Establish safe access to work area, correct manual handling procedures and placement of tools and materials
- at heights;
- Safety dismantle, inspection and store work at height safety system; and
- Use basic rescue equipment.

PRE-REQUISITE: There is no pre-requisite for this course, however it is recommended that you do not have a fear of heights.

ON COMPLETION: On successful completion of the assessment requirements you will be issued with a Statement of Attainment for RIIHWHS204D Work safely at heights and a Notice of Assessment (interim licence).

DURATION: 8.5 hours

LOCATION: Industrial Foundation for Accident Prevention (IFAP), 128 Farrington Road, North Lake

DATES: Wednesday 3 August, 2016

MASTER BUILDERS

WESTERN AUSTRALIA
building a better industry

Did you know we offer these Safety services?

- customised Safety Management Plans.
- generic Safety Management Plans, allowing you to do your own customisation.
- site safety inspections.
- advice of Occupational Safety & Health issues.
- toolbox talks.
- safety related training courses.
- assist in preparation of JSA's and SWM's.

OCCUPATIONAL HEALTH & SAFETY - Perth Metro

CERTIFICATE IV IN WORK HEALTH & SAFETY BSB41415

(The registered Training Organisation, Industrial Foundation for Accident Prevention (IFAP) 1907 will be the RTO issuing Statement of Attainment for this unit of competency)

The Certificate IV Work Health and Safety is designed for those interested in attaining skills and knowledge to work in a work health and safety (WHS) role and who may be required to work independently or under supervision.

MODULE 1 - CORE UNITS

- BSBWHS402 Assist with compliance with WHS laws.
BSBWHS403 Contribute to implementing & maintaining WHS consultation and participation processes.
BSBWHS404 Contribute to WHS hazard identification, risk assessment and risk control.
BSBWHS405 Contribute to implementing and maintaining WHS management systems.
BSBWHS406 Assist with responding to incidents.

MODULE 2 - ELECTIVE UNITS

- PUAWER002B Ensure workplace emergency prevention procedures, systems and processes are implemented.
BSBWHS407 Assist with claims management, rehabilitation and return-to-work programs.
BSBRES401 Analyse and present research information.
BSBMGT401 Show leadership in the workplace.
BSBWRT401 Write complex documents.

ON COMPLETION: On successful completion of the assessment requirement for the ten units of competency will provide participants with a qualification for BSB41415 Certificate IV in Work Health and Safety.

DATES: (10 days total duration)
Module 1: 1-5 August, 2016
Module 2: 5-9 September, 2016

Module 1: 3-7 October, 2016
Module 2: 7-11 November, 2016

LOCATION: Industrial Foundation for Accident Prevention (IFAP), 128 Farrington Road, North Lake

SAFETY & HEALTH REPRESENTATIVE

Safety and Health Representatives are important because it makes sense for employers and employees to talk to each other about safety at work. The experience and knowledge of employees can make a significant contribution to identifying and controlling hazards and risks, and developing preventative measures to address health and safety issues that arise at the workplace.

A Safety and Health Representative is the key to communication by making it easier to exchange ideas and concerns about safety between employers and employees. Safety and health representatives raise and discuss safety issues and concerns with employers and/or managers so they can work together and arrive at solutions to make the workplace safe.

On completion of this course, you should be able to: -

- Apply knowledge of legislation in the role of a Safety and Health Representative;
- Identify and locate information from a variety of sources;
- Identify and evaluate hazards in the workplace and recommend control methods;
- Conduct an effective inspection of their workplace;
- Conduct an effective investigation into workplace illness/injuries and accidents;
- Communicate on Safety and Health matters and represent employees;
- Describe the functions, make up and roles of Safety and Health Committee;
- Resolve conflict and issue Provisional Improvement Notices (PINs) when appropriate

ON COMPLETION: On successful completion of this course you will be issued with a Certificate of Attendance.

DURATION: 8 hours

LOCATION: Industrial Foundation for Accident Prevention (IFAP), 128 Farrington Road, North Lake

DATES: Monday 1 to Friday 5 August, 2016 (5 day course)

WHITE CARD - Perth Metro

WORK SAFELY IN THE CONSTRUCTION INDUSTRY CPCCOHS1001A

(The Registered Training Organisation Master Builders Association of WA 5101 will be the RTO issuing this qualification).

This unit of competency specifies the outcomes required to undertake Occupational Health and Safety (OHS) induction training within the construction industry.

This unit relates directly to the general induction training program specified by the National Code of Practice for Induction for Construction Work (ASCC 2007).

ON COMPLETION: On successful completion you will be provided with a Statement of Attainment from Master Builders Association of WA for Work safely in the construction industry CPCCOHS1001A.

DURATION: 5 hours

LOCATION: Master Builders Association of WA Level 3, 35-37 Havelock St, West Perth

DATES: Available on request for classroom or available to be completed online at www.mbawa.com.

SOFTWARE SKILLS - Perth Metro

MS EXCEL® BASIC

In this 4 hour course you will learn how to use Microsoft® Excel's basic functions, including how to create and format a spreadsheet to produce business documents. This course will also teach you how to use formula and how to create a variety of charts to display spreadsheet data. Small class of up to 10 participants.

- Introduction to Microsoft Excel
- Creating Excel workbooks
- Formatting the spreadsheet
- Cut and copy text and data
- Creating charts
- Page setup and printing

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesday: 3 May
Fridays: 5 February, 4 March, 1 April,
10 June, 8 July, 5 August, 2 September,
4 October & 4 November.

MS EXCEL® INTERMEDIATE/ADVANCED

Do you find spreadsheets useful, but just don't have the skills to set them up properly?

In this 4 hour intermediate course you will learn how to format spreadsheets, use formulas on data in a spreadsheet and creating charts from the data. Small class of up to 10 participants.

- Formulas
- Page setup and printing
- Import and export data
- Validate and protect data
- Shortcuts

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Tuesdays: 5 April, 9 August & 11 October.
Fridays: 12 February, 18 March, 6 May,
17 June, 15 July, 9 September &
11 November.

MS PROJECT® 2013 BASIC

Microsoft® Project is one of the world's most popular project management software applications.

Small class of up to 10 participants with hands on learning.

- Introduction to the various components that make up the software package;
- Build a basic list of tasks grouped under summary tasks;
- Create a project calendar with working hours relevant to your organisation;
- Add public holidays and any company closure times to the project calendar;
- Create this calendar as a default for all projects;
- Link the tasks in your task list in the order in which they are going to be done;
- Learn about task relationships and task dependencies;
- Format your Gantt chart; Task List & various views to use;
- Review the standard reports provided in MS Project.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 7 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Mondays: 1 February, 14 March, 4 April,
2 May 13 June, 18 July, 1 August,
5 September, 3 October & 7 November.

MS PROJECT® 2013 INTERMEDIATE/ADVANCED

- Create a resource list including people, equipment, material and cost resources;
- Create calendars for your resources;
- Learn about different task types and how this affects resource allocation;
- Allocate resources to tasks;
- Review your project to find over-allocated resources using various tools and views;
- Create a Project Budget and view how costing is done;
- Create the initial baseline for your project and learn how to add additional baselines as required;
- Track the progress on your project using various methods;
- Report on progress using built in views and reports;
- Export your project data to Excel and print your project plan as a PDF.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 7 hours

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock St, West Perth

DATES: Mondays: 8 February, 21 March, 11 April,
9 May, 27 June, 25 July, 8 August, 12 Sept,
10 October & 14 November

TRADE & OCCUPATIONAL LICENSING - Perth Metro

DIPLOMA OF BUILDING AND CONSTRUCTION CPC50210

(The registered Training Organisation Master Builders Association of NSW RTO 6163 will be the RTO issuing this qualification).

This qualification is suitable for those wishing to become Registered Builders in Western Australia, Construction Managers, Site Supervisors, Building Inspectors.

This qualification will comprise the following units of competency: -

CPCBC4001A	Apply building codes and standards to the construction process for low rise building projects
CPCBC4003A	Select and prepare a construction contract
CPCBC4004A	Identify and produce estimated costs for building and construction projects
CPCBC4010A	Apply structural principles to residential low rise constructions
CPCBC4005A	Produce labour and material schedules for ordering
CPCBC4013A	Prepare and evaluate tender documentation
CPCBC5001B	Apply building codes and standards to the construction process for medium rise building projects
CPCBC5002A	Monitor costing systems on medium rise building and construction projects
CPCBC5003A	Supervise the planning of on-site medium rise building or construction work
CPCBC5010A	Manage construction work
CPCBC5018A	Apply structural principles to the construction of medium rise buildings
BSBOHS504B	Apply principles of OHS risk management
BSBPMG505A	Manage project quality
BSBPMG508A	Manage project risk
CPCBC5005A	Select and manage building and construction contractors
CPCBC5007A	Administer the legal obligations of a building or construction contract
CPCBC4014A	Prepare simple sketches and drawings
CPCBC4018A	Apply site surveys and set-out procedures to building and construction projects
CPCSUS5001A	Develop workplace policies and procedures for sustainability

PRE REQUISITE: There is no pre-requisite but Master Builders requires participants to have at least 5 years of construction industry experience and for participants to be computer literate.

ON COMPLETION: After successful completion of this course, you will be issued with a National Diploma CPC50210 Diploma of Building and Construction that meets the educational requirements for Builders Registration in Western Australia.

DURATION: 4 days per month (Thursday, Friday, Saturday and Sunday) for a 6 month period (24 days x 8 hours) plus, after hours assignment work.

LOCATION: Master Builders Association of WA
Level 3, 35-37 Havelock Street, West Perth

DATES:

Course 1: 28 April - 1 May;
26 May - 29 May;
30 June - 3 July;
28 July - 31 July;
25 August - 28 August and;
22 September - 25 September 2016 (inclusive).

Course 2: 27 October - 30 October;
1 December - 4 December 2016 and continues in 2017.

CONSTRUCTION SKILLS - Great Southern

LICENCE TO PERFORM DOGGING CPCCLDG3001A

(The registered Training Organisation Induction & Training Services 51630 will be the RTO issuing this qualification).

Course content includes:

- Use of calculators
- Use and operate a range of tools and equipment correctly and safely
- Properly starts up, operates and shuts down equipment
- Carries out pre- and post-operational checks on equipment and machines
- Performs tool and equipment maintenance as required

PRE REQUISITES:

- Must be 18 years of age
- Reasonably good reading and writing and numeracy ability.
- Provide 2 forms of identification. (One with a photo e.g., Passport or Australian Drivers Licence and the other a Medicare or keycard).

ON COMPLETION: Successful participants will be issued with a notice of assessment for a National Licence to perform High Risk work. You will then have 60 days to apply for a High Risk Licence with WorkSafe.

DURATION: 40 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATES: 7,8,9, & 10 June (Tuesday to Friday inclusive).

LICENCE TO OPERATE A FORKLIFT TRUCK TLILIC2001A

(The registered Training Organisation Induction & Training Services 51630 will be the RTO issuing this qualification).

The Forklift Training Course is based on the Unit of Competency TLILIC2001A.

This course covers the skills and knowledge needed to do the following tasks:

- inspect
- pre-operation tests
- drive and manoeuvre
- lift and relocating of loads using a forklift truck.

PRE REQUISITES:

- Must be 18 years of age;
- Reasonably good reading and writing and numeracy ability;
- Provide 2 forms of identification. (one with a photo e.g., Passport or Australian Drivers Licence and the other a Medicare or keycard)

DURATION: 16 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATES: Monday 8 & Tuesday 9 February (incl).
Monday 14 & Tuesday 15 November (inclusive).

LICENCE TO OPERATE A BOOM TYPE ELEVATING WORK PLATFORM TLILIC2005A

(The registered Training Organisation Induction & Training Services 51630 will be the RTO issuing this qualification).

Course content Includes:

- Duty of care and responsibility
- Types of EWP's
- Selection of machines
- Planning of job and site
- Theory and practical assessments

Elements of Competency:

- Plan and prepare for operations
- Position and set-up platform
- Conduct work activities from elevated platform
- Carry out operator maintenance

PRE REQUISITES:

- Must be 18 years of age
- Provide 2 forms of identification. (one with a photo e.g., Passport or Australian Drivers Licence and the other a Medicare or Keycard)

ON COMPLETION: Successful participants will be issued with a notice of assessment for a National Licence to perform High Risk work. You will then have 60 days to apply for a High Risk Licence with WorkSafe.

DURATION: 16 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATES: Monday 2 & Tuesday 3 May (inclusive).

INDUSTRY SKILLS - Great Southern

CODES & STANDARDS – RESIDENTIAL DESIGN CODES

Residential development can often be confusing, with different requirements under the Scheme, Local Planning Policies and the Residential Design codes.

This seminar covers;

- What residential development requires approval?
- How do you know if you can further develop your land?
- Where to look for development requirements?
- What are the 'R' codes and how do these fit in with other requirements?
- What do you need to address in an application?
- Who assesses residential development applications?
- Next steps, after approval has been received?

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATE: Tuesday 5th April 2016,

CONTRACTS SERIES I

SERIES I: NEGOTIATING YOUR CONTRACTS AND CHOOSING THE RIGHT CONTRACT AND SUBCONTRACT.

This course covers negotiating your contracts and choosing the right contract or subcontract.

Subcontractors and Builders often take on expensive jobs, with little in the way of contractual protection. Other times, subcontractors may be presented with volumes of paper and told to 'take it or leave it'. Either way, if you don't know what to look out for, you won't know what risks you are likely to face or how to avoid them.

This 3 hour session looks at how to identify and avoid and manage the risks faced by subcontractors.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 3 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATES: Monday 21 March & Monday 17 October.

CONTRACTS SERIES 2

SERIES 2: DELAY, DISRUPTION, EXTENSION AND PREVENTION.

When the job doesn't get done on time, someone has to bear the loss. This 3 hour course, will look at how you can protect yourself from the risks associated with delay, when and how you can avoid having to pay for preventable delays, and issues relating to avoidable disruptions, extensions of time, liquidated damages and prevention by owners.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 3 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATES: Monday 16 May & Monday 21 November

PLANNING APPROVALS PROCESS

The development approval process is often confusing and can unnecessarily hold up new development, costing time and money.

Topics covered;

- How do you know what requires development approval?
- If development approval is required, what is the next step?
- What should you include in your application?
- Who and how is your application assessed?
- What conditions can you expect?
- What should you do if the application is refused?
- Tips to making the process quicker and easier

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATE: Wednesday 6 April

INDUSTRY SKILLS - Great Southern

PLANNERS GUIDE TO SUBDIVISION

The subdivision process can be complex and confusing for both local and state government policy applicable. This seminar looks at simplifying the process and outlining what you can expect during the process.

Topics covered;

- What should you look for when purchasing property to subdivide?
- What are the different types of subdivision and which should you choose?
- How do you apply for subdivision?
- How does the assessment process work?
- What type of conditions, are likely to be imposed?
- What happens if the subdivision is refused or you don't like a condition?
- After approval, how do you obtain titles?
- Tips to make the process easier and uicker?

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

HOURS: 4 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATES: Wednesday 6 April.

TENDERING FUNDAMENTALS

Without winning the tender, your business has spent time and money without the reward it deserves.

The preparation of tender documents requires attention to detail, a keen eye for reading between the lines and addressing the key client requirements.

This course is designed to teach you how to write a tender and how to ensure that your response to the opportunity is strategically written in order to maximise your chances of winning the tender.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 3 hours

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

DATES: Monday 22 February & Monday 19 September.

Insurance Partner

MBA Insurance Services (MBAIS) is the specialist building and construction industry insurance provider.

MBAIS is a member service offered by the Master Builders Association – unlike other insurance brokers, all profits are injected back into the building and construction industry – your industry, to pay for things like technical and soft skills training, apprenticeship schemes, free legal advice and other services that assist your business.

This includes having its own manuscript construction and liability wording should you have a complex contract requiring specialist cover.

OCCUPATIONAL HEALTH & SAFETY - Great Southern

LEADERSHIP IN OHS FOR SUPERVISORS & MANAGERS

This course is applicable to all Site Supervisors, Managers, Project Managers and Administrators to improve and manage safety in their workplace.

Learning outcomes:-

- Provide information to the work group about Occupational Health and Safety policies and procedures.
- Implement and monitor the participative arrangements for the management of Occupational Health and Safety.
- Implement and monitor the organisation's procedures for providing Occupational Health and Safety.
- Implement and monitor procedures for identifying hazards and assessing risks.
- Implement and monitor the organisations procedures for controlling risks.
- Implement and monitor the organisations procedures for maintaining Occupational Health and Safety

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 8 hours

DATE: Thursday 28 April.

LOCATION: Master Builders Association of WA
30 Graham Street, Albany

PROVIDE BASIC EMERGENCY LIFE SUPPORT HLTAID002

(The Registered Training Organisation St John Ambulance (Western Australia) 0392 will be the RTO issuing this qualification).

This course will provide you with the skills and knowledge to recognise and respond to life threatening emergencies in a range of situations.

Learning outcomes:-

- Hazard assessment to minimise risk
- Checking for normal breathing and recognising abnormal breathing
- Chest pain
- Cardiac arrest
- Four minutes of uninterrupted CPR on an adult resuscitation manikin placed on the floor
- Four minutes of uninterrupted CPR on an infant manikin placed on a hard surface
- Use of Automated External Defibrillator including specific considerations for child and adults
- Allergic and anaphylactic reactions
- Asthma
- Choking and airway obstruction
- Airway obstruction due to body position
- Severe bleeding
- Shock

INDUSTRY SKILLS - North West

BASIC CONTRACT ADMINISTRATION

Is your building business suffering a breakdown in the management of the building contracts? Is it due to site information not being passed on to the right people?

Topics covered in the course include:

- Understanding the Contract
- Understanding the Claims Process
- Variations, Delays and Defects
- Contract Administration and Project Management
- Communication and Dispute Resolution

Participants are encouraged to bring the contracts they use to the course. This will provide them with a greater understanding of the documents they use and where to find relevant provisions.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Broome

DATE: 18 February

CONTRACT MANAGEMENT

Lack of knowledge and understanding of building contracts is the cause of numerous unprofitable building projects. The contract provides the basis for the scope of work, getting paid, managing time and quality issues, documenting project management and resolving disputes. You need to work through the contract as you work through the job. Do you know how to do that?

This one-day course is an overview of every area of contract management for those who need to know a little about everything.

- Contract formation and interpretation
- The claims process
- Variations, EoT's and delay costs
- Management teams

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 7 hours

LOCATIONS: Broome, Geraldton & Karratha

DATES: Broome: 18 August
Geraldton: 26 July
Karratha: 2 November

CUSTOMER SERVICE

In today's price-sensitive economy, everyone on your team needs to be willing to do whatever it takes to "wow" your customers – it's the only way to stand apart from your competitors and win the business.

- Identify the qualities of good and bad customer service
- What makes service outstanding?
- The 9 key attributes of an outstanding customer service provider
- Outstanding service is up to you
- It's the little things that make the biggest impact – what service memory can you create?
- Important first impressions – grooming and deport ment
- Greeting the customer – what to do and what not to do!
- Showing you care – practical ways to be helpful and service oriented
- Exceeding customer expectations – under promise and over deliver

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATIONS: Broome, Geraldton, Karratha & Port Hedland

DATES: Broome: 17 March
Geraldton: 26 May
Karratha: 20 July
Port Hedland: 10 November

DIY DEBT COLLECTION

Owed money? Don't want to spend good money chasing bad? You don't have to. You can simply do your own debt collection, using the tools that your contract and legal system offer. **NO EXPENSIVE LEGAL BILLS!**

Topics covered in this 4 hour course:

- The Contract
- Dispute Resolution Options
- Application for Adjudication
- Magistrates Court
- Building Disputes Legislation

You can DIY! Come and find out how on this course.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATIONS: Geraldton & Karratha

DATES: Karratha: 22 June
Geraldton: 25 October

INDUSTRY SKILLS - North West

DURATION: 8 hours

LOCATIONS: Broome, Geraldton & Karratha

DATES: Broome: 19 August
Geraldton: 26 October
Karratha: 3 November

TIME MANAGEMENT

We have email, instant messaging, social media, video conferencing and the smart-phone. But the price of that connectedness is overwhelming!

Important tasks get interrupted and delayed because people are not managing their activity or their projects effectively.

In this 4 hour course, the focus is on goal setting, prioritising and planning. We cannot manage time – the fact is we all get allocated the same number of hours every day – what we can manage however, is the activity we choose to fill our time with. And this is the secret to high personal productivity.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATIONS: Broome, Geraldton, Karratha & Port Hedland

DATES: Broome: 17 March
Geraldton: 26 May
Karratha: 20 July
Port Hedland: 10 November

OCCUPATIONAL HEALTH & SAFETY - North West

IDENTIFY REQUIREMENTS FOR SAFE TILT-UP WORK CPCCCM1016A

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 3 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Monday 18 April.

CONTRACT MANAGEMENT

The contract provides the basis for the scope of work, getting paid, managing time and quality issues, documenting project management and resolving disputes.

This course offers an overview of every area of contract management for those who need to know a little about everything.

- Contract formation and interpretation
- The claims process
- Variations, EoT's and delay costs
- Management teams
- Dispute resolution

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 7 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Friday 10 June

INDUSTRY SKILLS - South West

CUSTOMER SERVICE

Imagine a culture of "service entrepreneurship", where each staff member enthusiastically takes responsibility for ensuring your customers have an experience they'll want to share with everyone they meet!

It's no longer good enough to give "excellent" customer service. To get customers coming back to you time and again, to get customers giving you rave reviews, your service has to be nothing short of "extraordinary".

In today's price-sensitive economy, everyone on your team needs to be willing to do whatever it takes to "wow" your customers – it's the only way to stand apart from your competitors and win the business.

- Identify the qualities of good and bad customer service;
- What makes service outstanding?;
- The 9 key attributes of an outstanding customer service provider;
- Moments of truth – outstanding service is up to you;
- It's the little things that make the biggest impact – what service memory can you create?;
- Important first impressions – grooming and deportment;
- Greeting the customer – what to do and what not to do!
- Showing you care – practical ways to be helpful and service oriented;
- Exceeding customer expectations – under promise and over deliver.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Thursday 23 June

TRAINING TEAM (L-R):
Megan Parker (North West), Neil Du Rand (Training Director), Cheryl Davies (South West) & Janet Snell (Great Southern)

DIY DEBT COLLECTION

Owed money? Don't want to spend good money chasing bad? You don't have to. You can simply do your own debt collection, using the tools that your contract and legal system offer. **NO EXPENSIVE LEGAL BILLS!**

Topics covered in this 4 hour course: -

- The Contract
- Dispute Resolution Options
- Application for Adjudication
- Magistrates Court
- Building Disputes Legislation

You can DIY ! Come and find out how on this course

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Monday 29 February.

LAWS AND RULES SPECIFIC TO REGISTERED HOME BUILDERS

The registered home builder faces great challenges! Home building is more emotionally charged and more heavily regulated than the rest of the construction industry.

This course covers the extra rules that apply to Home Building Contracts under \$500,000 and the best ways of managing these contracts. It also looks at the consumer protection laws that apply uniquely to this market. A must for all registered home builders!

Topic covered:

1. Home Building Contract Act
 - Regulating contractual terms and behaviours
2. Building Commission
 - Exclusive jurisdiction for resolving disputes
3. Consumer Protection
 - How the new consumer laws apply to you
4. Contracts Best Practice
 - Managing rights, obligations and expectations

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Monday 12 September.

INDUSTRY SKILLS - South West

NEGOTIATION SKILLS

An essential for all personnel involved in contract negotiation, contract management or dispute resolution.

Topics covered include:

- Communication skills.
- Negotiation and conflict resolution.
- Avoiding bargaining over positions.
- Separating people from the problem.
- Insisting on objective criteria.
- Getting the other side to play.
- Identifying the point at which negotiation is no longer desirable or possible.
- Best alternatives to a negotiated agreement.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Monday 1 August.

STRESS MANAGEMENT (workshop)

Do you know what creates stress and tension?

Learn how to:

- tame your thoughts and manage your emotion;
- take control of your life and stop over-committing yourself;
- release tension in an instant;
- use focus and self-discipline to overcome overwhelm.

Learn six (6) simple well-being strategies to manage stress.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Monday 5 December

THE LAW IN CONSTRUCTION

The one stop shop on all the major contractual and legal issues particular to the construction industry – a one day investment for a career-long return.

Topics covered in this course: -

- The Tender Process;
- Delay and Disruption;
- Risk, Liability and Insurance ;
- Personal Properties Security Act ;
- Good Faith in Contracting;
- Getting Paid; and
- Building Services Legislation -
 - Dispute Resolution through the Building Commission and State Admin Tribunal;

 - New procedures for building permits and certifications.

ON COMPLETION: You will be provided with a Master Builders' certificate of attendance.

DURATION: 8 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Wednesday 31 August.

TIME MANAGEMENT

We have email, instant messaging, social media, video conferencing and the smart-phone. But the price of that connectedness is overwhelming.

Important tasks get interrupted and delayed because people are not managing their activity or their projects effectively.

In this 4 hour course, the focus is on goal setting, prioritising and planning. We cannot manage time – the fact is we all get allocated the same number of hours every day – what we can manage however, is the activity we choose to fill our time with. And this is the secret to high personal productivity.

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Thursday 28 April.

INDUSTRY SKILLS - South West

WORKPLACE COMMUNICATION

With a multi-cultural workforce, it is essential that managers, supervisors, team leaders and safety officers understand how to communicate effectively. People's lives, and your bottom line, depend on it.

Topics covered in this 4 hour interactive course:

- Communicating clearly
- Communicating effectively to a group
- Breaking down instructions to improve comprehension
- Perception checking
- Understanding your own communication style and how best to adapt to others' styles
- The importance of non-verbal communication
- Choosing the most appropriate channel of communication
- Active listening skills
- Delivering high impact messages
- Giving constructive feedback

ON COMPLETION: You will be provided with Master Builders' certificate of attendance for this course.

DURATION: 4 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DURATION: 8 hours

LOCATION: Master Builders Association of WA
19 Clifford Street, Bunbury

DATE: Thursday 16 June

Do you need a white card?

Main contractors, employers and people in control of construction work have the obligation to ensure that workers don't undertake construction work without being in possession of either Blue Card or a White Card. Employees and self-employed people should ensure that they complete the training.

Construction induction training that is nationally accredited will be recognised under the amended regulations. From the end of August 2009 in WA, this will be a unit of competence CPCCOHS1001A Work safely in the construction industry from the CPC08 Construction, Plumbing and Services Integrated Framework Training Package. Those people who have completed the course 51466 Course in Safety Awareness Training will not have to repeat the training as it was also nationally recognised training. An employer or person in charge of a site does have the right to insist that workers on the site must complete the unit CPCCOHS1001A Work safely in the construction industry (white card)

CLASSROOM BASED TRAINING:

5 hour duration, receive your card and Statement of Attainment (certificate) on the same day .

ON-LINE:

Anywhere within Western Australia in your own time. Fully accepted, 100% audited and in accordance with training requirements. Same card and certificate as classroom based training.
<http://www.trainmeonline.com.au/promo/index.php>

Call in at the MASTER BUILDERS head office:

Level 3, 35 - 37 Havelock Street, West Perth before 12.00pm on any weekday and complete the training at own pace, supported by TAE40110 qualified trainers. Receive your card and Statement of Attainment (certificate) on the same day.

BLUE card/ WHITE card REFRESHER:

Update your competencies. Complete the course on-line and receive a sticker with the refresher training details on your card. <http://www.trainmeonline.com.au/promo/index.php>

LOST or DAMAGED CARD:

If you completed your training with Master Builders a replacement card can be issued or a copy of your Statement of Attainment (certificate) by contacting Master Builders Training Centre 9441 8000. The replacement card will cost \$35.00 which can be collected or posted to you.

Check to see with which RTO you completed your Blue/White card in Western Australia

TERMS & CONDITIONS

CANCELLATION, REFUND & TRANSFER Every registration form has the cancellation notice written on the form relevant to that course. We require a minimum of 5 working days notice in writing to cancel a participants booking to receive a full refund, or transfer to a future course date. A substitute person will be accepted up to 48 hours prior to the course date.

We do accept a substitute participant, and must be given his/her completed registration form prior to the course to confirm cost and eligibility for CTF (Construction Training Fund) subsidy.

CONSTRUCTION TRAINING FUND - Subsidy The Construction Training Fund (CTF) provides a subsidy of \$30 per hour (to a maximum of \$240 per eight hour day, or 70% of the actual course cost, whichever is lower) for a wide range of courses undertaken by eligible employees at metropolitan RTPs. The maximum amount that can be claimed per employee, per course, is \$1300.00.

For training undertaken at regional RTPs, the CTF can provide a subsidy of \$33 per hour (to a maximum of \$264 per eight hour day, or 80% of the actual course cost, whichever is lower) towards an eligible course. The maximum amount that can be claimed per employee, per course, is \$1700.00

Please contact Master Builders Training Centre 9441 8000 to check your eligibility. The CTF may require a completed work history form to be able to advise on eligibility, this will be forwarded to you by Master Builders. The final decision with regards to eligibility rests with the Construction Training Fund.

COURSE ATTENDANCE A participant who does not attend a course, without notification in accordance with our cancellation policy will not be given a refund.

COURSE FEES All costs are inclusive of GST where applicable. Course costs are subject to change. A participant, who does not complete the course in full, will not be given his/her Certificate of Attendance or Statement of Attainment, whichever is applicable to the course.

COURSE DATE CHANGES/POSTPONEMENTS Master Builders reserves the right to change the date or time of a course, due to unforeseen circumstances, but will endeavour to offer an alternative date and will notify each participant. If the change does not suit a participant, a full refund will be offered. Contact Master Builders Training Centre on 9441 8000 to receive up-to-date course dates.

DISCLAIMER Courses and dates correct at time of print.

PRIVACY The information you provide to us on the registration form will be entered into our database for the purpose of processing your enrolment, confirmation and payment details. Your personal information will not be released by us to any other third party unless you authorise the release of the information. For Nationally Accredited training we are required to collect and report on AVETMISS data.

As of 1 January 2015, no Qualification or Statement of Attainment may be issued unless a valid Unique Student Identifier (USI) has been provided.

REGISTRATION & PAYMENT A registration form is required to be completed in full for each participant for each course they wish to attend. The participants name must be spelt correctly and legal name given. Payment is required prior to the course date to confirm your booking. Any pre requisites required to attend a course must be forwarded along with your registration form.

REPLACEMENT CERTIFICATE OF ATTENDANCE A replacement Certificate can be issued, "free of charge" if emailed, \$5.00 if posted.

REPLACEMENT STATEMENT OF ATTAINMENT (white card) A replacement Statement of Attainment can be issued, "free of charge" if emailed, \$5.00 if posted.

REPLACEMENT of all other STATEMENT OF ATTAINMENTS Depending on the training provider a fee is payable and can be confirmed upon request.

Master Builders Association of Western Australia is a Registered Training Organisation (RTO) #5101
