

TILT-UP CONSTRUCTION

CPCCCM1016A Identify requirements for safe tilt-up work

WHY ATTEND?

The aim of this training is to provide participants with the necessary knowledge and skills to equip them to safely work in tilt-up construction. The course provides meaningful theoretical instruction to help participants understand the hierarchy of hazard control and specific hazards associated with tilt-up construction and the Code of Practice.

This course is a legal requirement for people that are involved in the manufacture, storage, transport, erection and tilt-up and pre-cast panels.

PRE-REQUISITE

CPCCOHS1001A Work safely in the construction industry or CPCCWHS1001 Prepare to work safely in the construction industry.

WHAT WILL YOU LEARN?

- Tilt-up construction risk management process
- Identification of hazards, and assessing and addressing risks
- Codes of Practice and Standards
- Maintain safety of self and others
- Emergency Response Procedures
- Access and usage of information relating to safe tilt-up construction

A Statement of Attainment will be awarded by Frontline Safety and Training (RTO 50791) upon successful completion of course assessment requirements.
