# Plan, Reading & Interpretation

(PLANS & SPECIFICATIONS FOR CONSTRUCTION)

Plans and specifications are critical to all buildings. This course looks at the minimum standard builders should expect for plans, and references in the specification.

Notations and Symbols are explained for both Architectural and Structural plans and details.

At the completion of the course the participants will have a better understanding on plan and reading and interpretation as well as minimum standards they should be expecting of documentations.

The workshop will be interactive and participants are encouraged to be involved with the situations that will arise throughout.

## The course:

- Defines what minimum details should be expected for residential buildings to explain things clearly on site.
- Shows how specification and plans are cross-referenced.

DATE: Monday 23 February, 2015  
TIME: 9.00am – 12.00pm  
TRAINER: Ken Bezant – Bezant Consulting
