

New Planning Requirements to Include Trees

Building or Developing in the City of Stirling?

As a result of declining tree canopy cover in the City, *Amendment No. 9 'Trees and Development'* to the City's Local Planning Scheme No.3 has been adopted and approved by the Minister for Planning.

The Amendment sets out new design requirements for trees on development sites, which includes a requirement for one tree per 500m² of the site. This can be existing or new trees.

The Amendment encourages developers to design around trees or provide for new trees and to enable residents to enjoy the benefits of tree canopy while living in attractive green communities.

To learn more about what this could mean for design plans, visit the City's website at www.stirling.wa.gov.au/planningscheme
