## **Geraldton's Building & Home Renovation Expo**

Planning to build, renovate, landscape or decorate your home this year? Then save the date for Geraldton's Building & Home Renovation Expo on Thursday, 22 March.

This all-day community event, which will run from 10am to 7pm, is a good opportunity for builders, suppliers, tradespeople, interior designers and landscapers to connect with the Midwest Region's home buyers, renovators and property developers.

Master Builders Regional Manager Dianne Gilleland said it's been a long time since an Expo of this calibre had been run in Geraldton.

"The Building & Home Renovation Expo provides a wonderful opportunity for local people to see what's available in the building and renovation market, including the latest tools and technology, without having to travel all the way to Perth. It's great for the local economy and beneficial for our community," Mrs Gilleland said.

"Our aim is to help people network, connect and be inspired. There will also be lots of giveaways on the day."

Mrs Gilleland said she was still fielding enquiries from people who were keen to be seen at the Expo.

"It's not too late to book a display booth. We still have options available for businesses that would like to set up their stands inside or outdoors," Mrs Gilleland said.

"Food trucks will be required and we are encouraging expressions of interest."

Master Builders' Geraldton premises can accommodate a raft of trades, tools, information booths and food stalls.

"All going well, we would like to make this an annual event to promote the best that the mid-west has to offer local folk," Mrs Gilleland said.
