

13 July 2018

**EMBARGOED UNTIL 11PM SATURDAY 21 JULY 2018**

## **DENMAC is the Cream of the Crop**

***DENMAC has taken out the Subcontractor of the Year Award at the 2018 Master Builders-Bankwest Excellence in Construction Awards for their work on the Bannister Downs Dairy Creamery Construction Project.***

DENMAC were contracted to complete the cladding, including roofing and curtain wall for the Bannister Downs Dairy complex by Perkins Builders.

Master Builders Director, Michael McLean, said that DENMAC deserved their success in recognition of their exquisite workmanship and delivering an outstanding project for the builder.

“Industrial projects of this nature require incredible technical expertise, unrelenting perseverance and an unwavering commitment to construction excellence which DENMAC obviously demonstrated to our judging panel,” Mr McLean said.

“It is a credit to the DENMAC team that they were able to deliver such a first-class project which satisfied all the functional needs of the client.”

“Congratulations to DENMAC in also working in harmony with Perkins Builders to achieve an outstanding project for the South West region,” Mr McLean said.

Judges of the Subcontractor of the Year Award base their decision on quality of construction, attention to detail, relationship with the builder and other trades, degree of difficulty, innovative construction methods, safety, site and environmental management.

One of the award judges, Mr Kevin Sale, described the project as being of the “very highest standard of workmanship,” and stated that he had “no hesitation in commending DENMAC for this award.”

Mr Sale accredited the high level of workmanship to the complexity of the job, involving “individually shaped aluminium panels, which were laser cut, anodized and transported from the eastern states, then fitted to the curved framework including flashings to ensure a weatherproof job.”

DENMAC were up against four other Subcontractor of the Year in finalists Johnson + Co Plumbing Services (Intercontinental Hotel), Everett Smith & Co Pty Ltd (Perth Stadium Station), Vercon (Optus Stadium) and Ferguson Corporation Pty Ltd (Springs Aloft Hotel).

The 2018 Master Builders-Bankwest Excellence in Construction Awards were held on Saturday, 21 July at a gala function at the Perth Convention and Exhibition Centre, attended by a crowd of over 750 industry representatives and guests.

A list of all the award-winning builders at this year's awards can be accessed via [www.mbawa.com/awards-winners](http://www.mbawa.com/awards-winners).

DENMAC will now compete against the best commercial subcontractors in each of the other states and territories at Master Builders National Housing and Construction Awards in Adelaide on Saturday 24 November.
