Apprentices travel

Apprentices will only receive the travel allowance for days when they attend work. They will not be paid the allowance for days they attend school. When a school-based apprentice attends off-the-job training not at the school in which they are enrolled, they will receive 25% of the allowance as prescribed above.

Adult apprentices

An adult apprentice is an employee who is 21 years of age or over at the time of signing the contract of training.

To fix a rate of pay only, the adult apprentice will continue to receive the rate of pay that is applicable to the classification or class of work in which the adult apprentice was engaged immediately prior to signing the contract of indenture. Adult apprentices who have been employed for 6 months as a permanent or 12 months as a casual before starting their apprenticeship may have other entitlements.

If the apprentice has not been previously employed, the rate of pay will be the rate prescribed for the lowest paid classification prescribed in the award (currently \$24.82 per hour) or the rate prescribed for the relevant year of apprenticeship, whichever is the greater.

School-based apprentices

A school-based apprentice is an employee who is undertaking an apprenticeship while also completing their high school studies.

School based apprentices are not paid for the time they attend school or TAFE but instead they are paid 25% more hours than they worked (including overtime). These additional hours are called “deemed training hours” and are always payable at ordinary time.

For example, if an employee works 8 ordinary hours in a week, they will receive the following:

- 8 ordinary hours
- 2 “deemed training hours”

If an apprentice following the completion of their high school studies converts from a school-based apprentice to a full-time apprentice, the time spent as a school based will count towards their progression through the relevant wage scale at the rate of 2 years school based to 1-year full time. For example, if you had a school-based apprentice for 2 years, prior to them commencing as a full-time apprentice, they will likely commence their full time apprenticeship as a second year.

School-based apprentices are entitled to accrue pro-rata leave entitlements, such as annual leave and personal leave. These entitlements accrue on worked hours only (not deemed training hours).
