Quality on display at Kimberley Pilbara Building Excellence Awards

June 25, 2022

Northwest builders have raised the bar yet again this year with the winners and finalists of the 2022 Master Builders-Bankwest Building Excellence Awards displaying an outstanding commitment to quality workmanship and innovation.

In a year of extraordinary challenges for the state's housing industry, regional builders have stepped up and provided a high standard of work in the Northwest region.

H&M Tracey took the award for the 2022 Bankwest Best Regional Project Kimberley Pilbara Region. The St Mary's Pre-Primary building on Dakas Street now replaces the existing old classrooms with a new contemporary, modern, interactive, and functional learning space for the students. The external use of timber bush poles and the practical durable internal and external finishes complimented by the timeless colour scheme, ensures this building is the perfect addition to the existing school infrastructure.

Timik Developments took home the award for 2022 Roebuck Estate Developments Best Country Home, for The Jankurna.

The Jankurna is an exceptional home in Karratha with four bedrooms, study, theatre, and a walk-in robe. The house externally is constructed from limestone blocks giving a country feel. Internally we have a well laid out kitchen, scullery, and laundry with stone tops throughout. The fixtures and fittings chosen by the client are of exceptional high quality.

Chief Judge Charlie Baggetta was impressed by the high calibre of entries in a uniquely difficult year.

"Northwest builders are taking great pride in producing a quality product, for most it is their selling point over their competition.

"The judges were absolutely taken aback by the professional projects that were delivered in this region. Some were in quite remote areas where this possibly magnified the difficulty to build, but the results showcased the ability to bring the best out from all their subcontractors and suppliers and produce the workmanship everyone is proud of", Mr Baggetta said.

Master Builders Executive Director John Gelavis was pleased with the entries in the 2022 regional awards after coming out of a difficult two years.

“During such unprecedented times, we were pleased to see our regional members continuing to deliver excellence in their work for excellence”, Mr Gelavis said.

Other winners included, Broome Builders, Connolly Homes, H&M Tracey Construction, PGM Constructions, Timik Developments, DLR Building Co. and CMA Contracting.

The awards were held on June 25 at Cable Beach in Zanders.
