“Goldfields-Esperance builders are taking great pride in producing a quality product, for most it is their selling point over their competition.

“The judges were absolutely taken aback by the professional projects that were delivered in this region. Some were in quite remote areas where this possibly magnified the difficulty to build, but the results showcased the ability to bring the best out from all their subcontractors and suppliers and produce the workmanship everyone is proud of”, Mr Baggetta said.

Master Builders Executive Director John Gelavis was pleased with the entries in the 2022 regional awards after coming out of a difficult two years.

“During such unprecedented times, we were pleased to see our amazing regional members continuing to excel and deliver such high quality building and construction projects”, Mr Gelavis said.
